

WELL Assessments

LABARRE ASSOCIATES, INC. is a diversified organization that offers strategic facility planning, real estate, architecture, and construction services. We provide practical, high quality and cost-effective services for all your facility needs.

Are you **rethinking** back-to-office plans?
Are you **concerned** with reopening to the public?

The WELL Health-Safety program is designed to empower owner and operators across large and small businesses alike to take the necessary steps to prioritize the health and safety of their staff, visitors, and stakeholders.

Labarre Associates, Inc. can help organizations confidently prepare their spaces for re-entry and create strategies that can help reduce the risk of transmission of COVID-19 and other respiratory diseases.

Your WELL Health-Safety Journey:

// WELL Assessment - Assessment of an organization's building(s) and procedures for precondition features and optimization opportunities for seven (7) categories of wellness: **Air, Water, Nourishment, Light, Fitness, Comfort, and Mind.**

// Customize Your Approach - Your assessment will come with recommendations for implementation along with a pricing guide to help you navigate what is right for your organization. Select the concepts that are relevant and affordable for your organization.

// Implement Changes - Assign a representative within your organization (HR, Operations, etc.) to implement internal procedures. Hire a contractor to handle building improvements and/or service.

// Pursue the WELL Health-Safety Rating - Earn a WELL Health-Safety seal to place on every space that has earned the rating to indicate your organization's role in promoting health and safety for staff and visitors.

The **WELL Health-Safety Rating** was created in response to the *COVID-19 pandemic* and consists of operational interventions that can be made to help mitigate its spread.

Why this **Assessment** matters now:

// Cleaning and Sanitization Procedures

// Emergency Preparedness Programs

// Stakeholder Engagement and Communication

// Health Service Resources

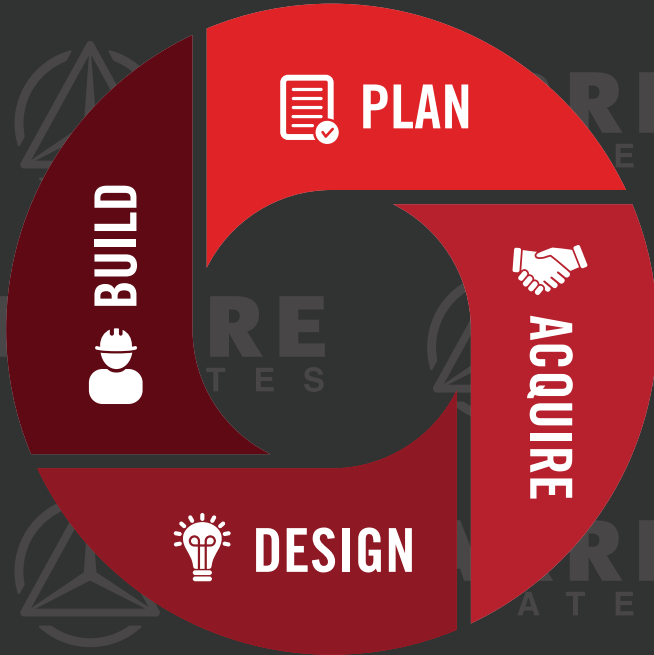

// Air and Water Quality Management

“ The WELL Health-Safety Rating is an evidence-based, third-party verified rating focused on operational policies, maintenance protocols, emergency plans, and stakeholder education and engagement to address a post-COVID-19 environment now and broader health and safety-related issues into the future. ”
